Education

Dhirubhai Ambani Institute of Information and Communication Technology

2023 – 2025

Master of Science in Information Technology - 70%

Gandhinagar, Gujarat

Veer Narmad South Gujarat University

2020 – 2023

Bachelor of Science in Information Technology - 68.8%

Surat, Gujarat

Experience

Business Analyst

Jan 2026 – Present

SSSM InfoTech Solutions Pvt. Ltd.

Surat, Gujarat

- Driving requirement analysis and process alignment for MES implementations across 2 manufacturing industries: LMEL integrated steel manufacturing and Emami Group oil refining operations
- Leading the documentation of API configuration workflows for direct SAP integration within the X-Force MES platform, eliminating intermediary database-based communication layers
- Collaborating with a 4-member cross-functional team to convert plant operations and business requirements into functional MES configuration specifications
- Standardizing BPMN-based process flow, equipment flow, and quality traceability models to improve operational visibility across manufacturing workflows

Business Analyst

May 2025 – Sep 2025

PalmInfotech

Surat, Gujarat

- Drafted 50+ user stories, use cases, and test cases by mapping client workflows, ensuring full feature coverage and minimizing missed requirements
- Translated client requirements into actionable documentation, enabling alignment with internal teams and contributing to 2 client conversions
- Managed a 5-member team of QA, developers, and designers, ensuring on-time delivery after overcoming prior delays of up to 2 weeks
- Applied AI prompt engineering with PlantUML to standardize flowchart documentation, saving 10 hours/week and making information easier to access for new team members

Software Engineer Intern

Jan 2025 – Apr 2025

Yash Metals

Bharuch, Gujarat

- Built a real-time equipment downtime monitoring dashboard used by 5+ site managers, enabling faster identification of idle machines and production bottlenecks
- Implemented SQL-backed workflows to track equipment downtime and evaluate equipment efficiency across shifts
- Generated exportable CSV/PDF reports that supported maintenance reviews and reduced time spent compiling operational summaries by approximately 25%

Projects

MotoFix — DIY Motorcycle Maintenance Platform (Prototype)

- Researched 5+ existing platforms and online repair resources to identify gaps in DIY motorcycle maintenance guidance
- Interviewed 20+ motorcycle users at moto meets to validate demand for step-by-step troubleshooting and model-specific instructions
- Currently building a prototype focused on Suzuki motorcycles, covering the full lineup across major models

CreatorMatch — Brand Collaboration Platform(Prototype)

- Synthesized insights from 40 micro-creators to isolate monetization and workflow blockers, directly shaping a product strategy focused on faster creator activation and income stability
- Defined a v1 solution combining smart creator-brand matching, pricing intelligence, and escrow-backed payouts to improve trust, conversion, and repeat usage in a two-sided marketplace
- Prioritized features using the RICE framework, sequencing discovery and payout reliability ahead of AI creation to maximize early marketplace liquidity

Skills

Technical Knowledge: SQL, JavaScript, HTML, CSS (basic working knowledge)
Tools & Platforms: ClickUp, PlantUML, GitHub, VS Code, Google Workspace, AI Tools, Word, Excel, and PowerPoint
Methodologies & Frameworks: Agile, Scrum, Waterfall, SDLC, Requirement Gathering, User Stories, Journey Mapping, MoSCoW, RICE

Leadership / Extracurricular

Student Placement Cell **Nov 2023 – Dec 2024**

Member *Dhirubhai Ambani Institute of Information and Communication Technology*

- Coordinated with 120+ recruiting companies and acted as liaison for 400+ students, ensuring smooth communication and structured recruitment workflows
- Scheduled and aligned 10+ interviews across 4 venues, ensuring conflict-free sessions and efficient placement day operations

Project Manager Job Simulation **2025**

Siemens Mobility — Forage *Virtual*

- Defined 5+ KPIs to improve progress visibility and alignment with Siemens Mobility project goals
- Built Excel dashboards using data from 3+ stakeholders, visualizing progress and communicating insights to decision-makers
